Reading

ASER learning assessments are conducted in the household. Children in the age group 5-16 are assessed. Assessments are conducted in 19 languages across the country. The type of school in which children are enrolled (government or private) is also recorded.

Table 4: % Children by grade and reading level. Allchildren. 2022

| VIII | 0.5 | 2.7 | 8.2 | 15.2 | 73.4 | 100 |

The reading tool is a progressive tool. Each row shows the variation in children's reading levels within a given grade. For example, among children in Std III, 2.9% cannot even read letters, 31.8% can read letters but not words or higher, 38.5% can read words but not Std I level text or higher, 16% can read Std I level text but not Std II level text, and 10.9% can read Std I level text. For each grade, the total of these exclusive categories is 100%.

The highest level in the ASER reading assessment is a Std II level text. Table 5 shows the proportion of children in Std III who can read Std II level text. This figure is a proxy for "grade level" reading for Std III. Data for children enrolled in government schools and private schools is shown separately.

*This is the weighted average for children in government and private schools only.
